

# in-line 12.

Compact, reliable and cost-effective.

The edding in-line 12 offers a unique communication capability that no industrial printer has ever shown before. Fitting seamlessly into any production line, the in-line-12 can be fully integrated into the network via its numerous inputs and outputs, able to communicate with upstream and downstream machines.

The compact printer also delivers superior reliability due to its robust aluminium casing and high quality, German design and manufacture. All this leads to increased production efficiency and elimination of incorrect and non-coding.

Thanks to edding's ink expertise, high-resolution printing (600 dpi) with different ink types and colours is possible on almost any material; including cardboard, plastic, glass and metal.

Especially suitable for users looking for an extremely reliable, efficient, error-free and environmentally friendly cost control labeling solution.
